Illinois State University

Student Association

Dear Friend,

We would like to take this opportunity to welcome you to the campus of Illinois State University where there are many new and exciting challenges ahead of you. As a student at ISU, you are a member of the Student Association.

The Student Association is an active and involved organization working to promote students' rights and interests and to provide viable services. However, we need your support in order to be truly effective. Illinois State University is a good institution and the Student Association wants to help every student develop as much as possible. If we can be of assistance, or the Staff and Assembly, please call upon us.

Throughout your days here you will experience the many new aspects of college life. The following pages will provide you with a glimpse of the campus. After time passes by, it is our hope that this book will become a collection for many fond memories.

We wish you the very best in the future and hope to see you on campus.

Sincerely,

Mike Donahue, President
Student Association

STUDENT ASSOCIATION

Mike Donahue and Paul Eber,
President and Vice-President of
the Student Association

The Student Association is an action oriented organization working to provide services to students and to also work to promote students' rights and interests to the University and external agencies. The Preamble to the ISU Student Association Constitution is the following.

We, the students at Illinois State University, desiring to maintain academic freedom, academic responsibility, and student rights; to develop better educational standards, facilities and teaching methods; to improve student cultural, social and physical welfare; to guarantee all people, because of their inherent dignity as individuals equal rights and possibilities for higher education regardless of sex, race, religion, political belief or economic circumstances; to foster the recognition of the rights and responsibilities of students to the University, the community and humanity; to stimulate and improve democratic student representation and by allowing ourselves responsible and effective participation in the academic, economic, political, and service processes, do hereby establish the Constitution for the Student Association of Illinois State University.

EXECUTIVES

The Student Association Executives strive to reflect the views of the Student Association Assembly and to represent the student body to the best of their knowledge by working with students, faculty and administrators whenever student oriented issues are presiding. The Student Association Executives are responsible for the staff operations (i.e., Students' Legal Services, Tenant Union, Printing Services, etc.).

The Student Association Executive Branch consists of the President and the Vice President elected at large each spring. To qualify as an executive candidate a person must have attended the University for at least two full semesters and be in good academic standing. This process is administered by the Student Association Elections Committee.

The President and the Vice President are ex-officio members of the Student Association Assembly, the President's (ISU) Student Fee Advisory Board, and the President is also an ex-officio member of the Academic Senate.

The President is also responsible for making Assembly vetoes and student appointments including Student Association Staff Personnel with the approval of the Assembly.
